ON, K2G 3R7

SUMMARY

Self-taught web developer with a Udacity Front-End nano-degree certificate and a passion for appealing user-friendly websites. Developed a notes app, a card memory game, and a travel diary app using a bag of skills ranging from NodeJS to React. Fun fact: I'm a soccer and music aficionado

SKILLS

React JS

NodeJS

HTML/CSS/JavaScript

AJAX/RESTful APIs

WordPress

PERSONAL SKILLS

Critical Thinking
Fast Learner
Team Player
Management and Leadership
Adaptability
Open-mindedness and Innovation

EDUCATION

B.A.Sc Chemical Engineering
University of Ottawa
2013-2018

PROJECTS

UNCLTR NOTES

www.uncltr-notes.web.app

A notes-taking web app created with React and Firebase. Firebase is used for authentication, database for notes, and hosting the website. Beautiful dnd was used to allow users to reorder notes, and save the order. And React Quill provides an easy-to-format editor that stores data in HTML format.

MEMORY FLIP GAME

bambiel.github.io/memory-card-game/

This is a card game created with just ReactJS and React Hooks. Three levels of difficulty are available to choose from, with the allotted time, and number of cards as the variants. An svg-element is used to display the time left, and the game progress in a countdown format.

TRAVEL DIARY APP

<https://travel-diaryapp.herokuapp.com/>

A NodeJS app for journaling your upcoming trips. The user enters a trip details (location and date), and a trip card with useful information (weather and location-photos) is dynamically created with async Javascript and multiple API calls. All trip cards are saved on the server along with user-notes. The HTML, Sass and JS files were minified and built with Webpack.

E-LEARNING

FRONT-END WEB DEVELOPER NANODEGREE

UDACITY | JAN - MARCH 2020

COMPLETE REACT DEVELOPER

UDEMY | MAY 2020

WORK EXPERIENCE

ASSISTANT BRANCH MANAGER

Enterprise Rent-A-Car | March 2018 - Jan 2020

- Addressed customer service needs quickly and professionally, while meeting company service expectations
- Coached new trainees on customer service and business management
- Developed morale-boosting strategies to engage my team, and meet customer service and revenue goals
- Created strong relationships with partnering accounts by delivering on promises
